

SPOOLEX

Jumbo-Spooling, the response to innovative materials for more efficient baby diapers

Spooler, excellence in spooling technology

Spooling allows to rewind a lot more product than on pancakes. Based on an **unequaled 40 years of experience**, Spooler's machines are the adapted response to the development of new ADL or Topsheet materials always bulkier, fluffier and more tension sensitive...

As a qualified expert in spooling technology, Spooler has always **supported its customers challenges** all along their projects, offering the **smart, adapted and customised solutions**.

Contact us right now to discover our new solutions or visit us at INDEX 20!
